

# CYBER SECURITY PRO

2014 EDITION

ENJOY SAFER TECHNOLOGY™

# CYBER SECURITY PRO

Enjoy your Mac to the fullest with our multi-layered security. Your connections are secured with Personal Firewall while you browse or share files online, and Antivirus and Antispyware make sure no multiplatform malware enters the system. On the Internet, your personal data is secured against theft by Anti-Phishing.

## Be Safer on the Internet

Protect your Mac against malware, as well as Windows- and Linux-targeted threats. Stay clear of all types of malicious code, including viruses, worms, and spyware.

<b>Antivirus and Antispyware</b>	Eliminates all types of threats, including viruses, worms and spyware ESET LiveGrid® technology: whitelisting of safe files based on file reputation database in the cloud	
<b>Auto-scan of Removable Media</b>	Scans devices and media for malware immediately upon insertion Scanning options include Scan / No Action / Setup / Remember this action	
<b>Web and Email Scanning</b>	Scans websites (HTTP) while you browse and checks all incoming emails (POP3 / IMAP) for viruses and other threats	
<b>Cross-platform Protection</b>	Stops malware spreading from Mac to Windows endpoints and vice versa Prevents your Mac from turning into an attack platform for Windows-or Linux-targeted threats	

## Keep Your Private Data Safe From Identity Theft

Don't let hackers steal and misuse your passwords and banking details. Protect your online identity during online shopping and banking and adjust the strictness of the protection when connecting to public Wi-Fi networks.

<b>Personal Firewall</b>	Easily define different profiles with different settings using Firewall Manager window Choose strictness of firewall protection from 3 predefined profiles: Public / Home / Work Zone Allow/Block all incoming/outgoing connections of selected applications, services or port numbers Allow/Block all connections of computers on the same network, and connections to a single computer based on that computer's IP address, name or domain name Exclude any IP address from being blocked by firewall	
<b>Anti-Phishing</b>	Protects you from attempts to acquire sensitive information such as usernames, passwords or banking and credit card details by fake websites masquerading as trustworthy ones	
<b>Removable Media Control</b>	Lets you disable access to removable media (CD-ROM, FireWire, USB, iOS devices & other) Allows to prevent unauthorized copying of your private data to external device	

## ESET Social Media Scanner

Extend your security to Twitter with this app. It scans for malicious links and protects your profile, as well as posts from those you are following.

## Keep Kids Safer Online

Show your kids only the good side of the Internet. Opt to block more than 20 categories of potentially offensive web content. Allow/block different website categories for a number of users or choose from predefined user profiles - Child, Teenager or Parent.

---

<b>Parental Control</b>	Set website categories based on allowed/blocked and whitelist/blacklist specific websites Choose from predefined profiles - Child, Teenager, Parent - and fine-tune them to fit your needs Get a full overview of: visited pages, categories, and dates and times
-------------------------	---

---

## Enjoy the Full Power of Your Mac

Protection that leaves more power for programs you use daily. Work, play and browse the Internet without slowdowns. Take advantage of a range of security features to stay online and unplugged longer and enjoy multimedia without pop-ups.

---

<b>Small System Footprint</b>	ESET Cyber Security Pro maintains high computer performance and extends the lifetime of hardware
<b>Presentation Mode</b>	No disruptive pop-ups during presentations, videos or other full-screen applications Pop-ups are blocked and scheduled security tasks postponed - to maximize performance and network speed
<b>Fast Updates</b>	ESET security updates are small and automatic, without slowing down your internet connection

---

## Install and Forget or Tweak Away

Enjoy the familiar streamlined interface that dovetails with your Mac and get powerful protection with default settings. Find the settings you need and easily set up and run computer scans. You get uninterrupted protection as the program runs in the background, and only asks for your attention when necessary.

---

<b>Settings for Advanced Users</b>	Offers in-depth security settings to fit your needs - for example you can set up set up scanning time and size of scanned archives
<b>One-click Solution</b>	Protection status and all frequently used actions and tools are accessible from all screens In case of any security alerts, quickly find the solution in one click
<b>Familiar Design</b>	The solution has a crisp design and familiar layout as you are used to in Mac Tools pane view is highly intuitive and transparent, allowing for quick navigation The whole graphic interface was specially designed for Mac OS X
